Key Solution Capabilities

Focusing on delivering Simplified Business Communications, Cloud One Business Communication Suite helps you connect dispersed teams, level up customer experience, streamline IT, and boost employee efficiency at all levels with everything you need in one simple system:

PBX

Call Center

Live Chat

Omnichannel Messaging

Video Conferencing

Simple User Apps

100+ Integrations

AI-Powered

For Business Owners

- Future-proof business with UCaaS + CCaaS in one platform
- Boost customer engagement & sales with omnichannel communications
- Slash telco/Local carrier costs and streamline duplicative services to one bill

For Employees

- One simple app for all: call, chat, message, anywhere, on any device
- 100+ enterprise-grade features at fingertips
- Work more efficiently with integrations & automation

For IT and System Admins

- Simplify setup, admin, and IT management
- Protect, control and manage user permission & access easily
- Maximize uptime in case of unforeseen events.

Cloud One Business Communication Suite makes managing our communication tools much easier. We now have calls, chat, and messaging in one app, and it's been a big relief for our IT team."

Call, Meet. Chat. On-the-go.

Cloud One Business Communication Suite enables you to take your extension with you wherever you go and turn any smart device into a work-connected communications hub. With Simu Connect UC Clients for web browsers, Android, iOS, Windows, and MacOS, you are guaranteed to be kept in the loop, always and everywhere.

Any Device. Anywhere

Never Miss a call

- Make and receive audio/video calls on computer or mobile phones
- Transfer, hold, mute, and record calls to any phone number or extension
- Access call history, voicemails, and call recordings
- Click to call any phone number on web pages using Google Chrome Extension
- Work flawlessly with CRM/helpdesk to know who's calling
- Customize call forwarding rules based on different presence status

Collaborate with Team

- Move seamlessly between voice, video, and 1:1 or group chat
- Chat and share files with colleague and customers, in one interface
- View the real-time call status & availability of your colleagues
- Start and join a conference call or web-based video meeting
- Access & manage personal or shared company contacts and phonebooks

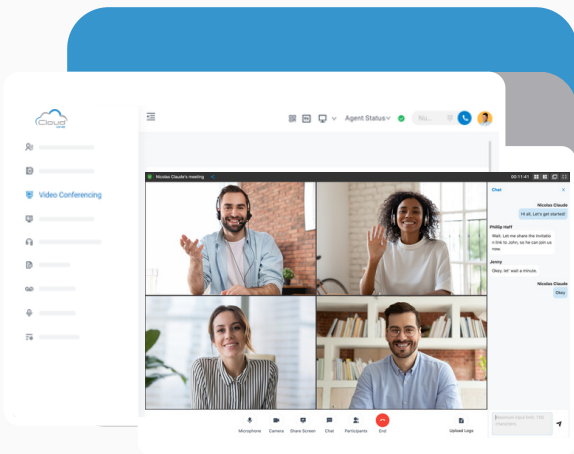

Connect All Devices

- Consistent experience across desktop, mobile, and web
- Connect all apps and desk phones simultaneously via SIP Forking
- Move a live call seamlessly between devices and continue your conversation everywhere

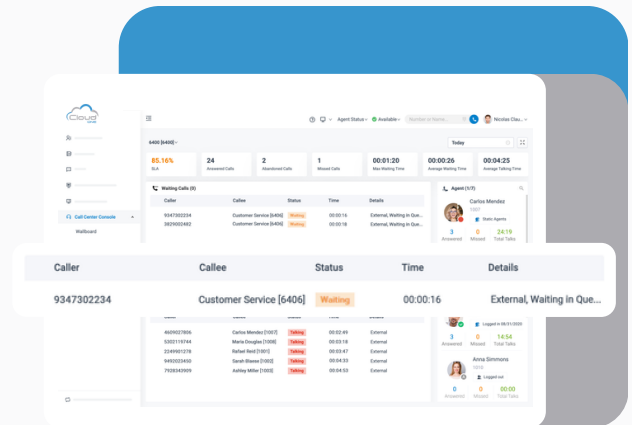

More on Desktop and Web App

Video Conferencing

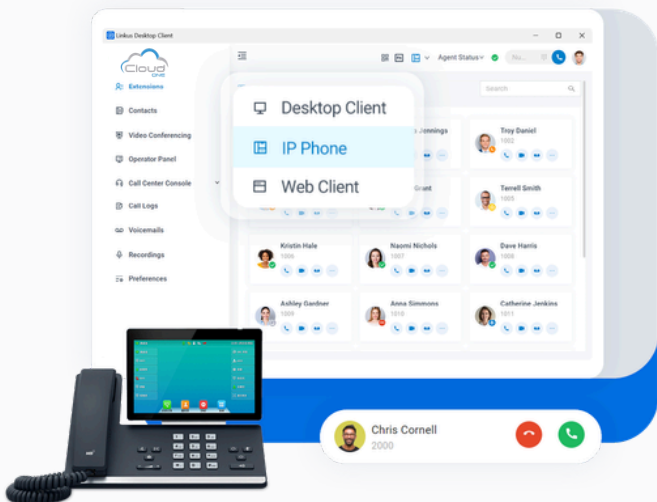

Start or schedule a web-based video conferencing in clicks. Participants can join the meeting via a unique meeting link and be further engaged with screen sharing & in-meeting chat.

Call Operator Panel

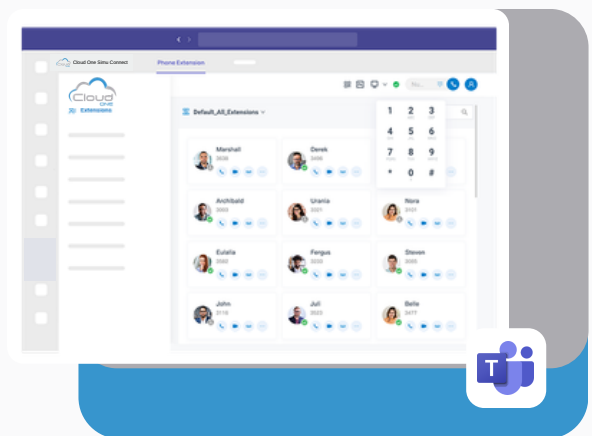

Use receptionist view to administer calls. Visualize all inbound/outbound call activities, and drag and drop to route calls to specific extensions, ring groups, queues, parking, etc.

Desk Phone Control (CTI)

Link the desktop/web app with your desk phone. Click to dial and control calls from your computer while using the desk phone for communications.

Free Microsoft Teams Integration

Embed Simu Connect app on Microsoft Teams to click to call, search contacts, check voicemails, and more directly in Teams. No extra Teams Phone license or integration middleware is needed.

Boost Customer Engagement & Sales

With Cloud One Business Communication Suite, engage with customers proactively and handle both inbound and outbound interactions seamlessly. Empower your agents with automated dialing, real-time performance insights, and intelligent call routing to drive more sales and enhance service efficiency.

Complete Call Center Features

Convert Visitors to Leads

With embeddable website Live Chat and Simu Connect SDK features, easily add a chat or call button your websites or offer calling capabilities directly within your own app. Let your visitors reach you for free with just a click.

- 3-in-1 Auto Dialers: Progressive, Power, and Agentless dialing
- Outbound Campaign Wallboard showing live performance metrics, agent stats, and call outcomes
- Campaign Call Inbox for agents: manage calls, access contact details, log dispositions, and schedule callbacks—all in one intuitive view.
- Do Not Call (DNC) list protection keeps your outreach compliant.

Easier Outbound Call Campaign Management

- Automatic call distribution, multi-level/lingual IVR, unlimited queues
- Skill-based routing & priority queue to deliver calls to most suitable agent
- Flexible queue ring strategies (Round-robin, least recent, etc.)
- Queue call-backs as overflow during busy times

Easier Inbound Call Resolution

- Wallboard showing real-time queue stats in one sum
- Switchboard-type Queue Panel for all agent-related operations in one place
- Agent coaching: call listen/whisper/barge-in and call recording
- Missed call disposition for easier follow-ups
- Graphical/real-time/historical/scheduled call center reports: queue/agent performance, SLA, and more.

Easier Agent Engagement

- Automatic greeting, Agent Hold Time announcement, music on hold, etc.
- Post-call survey settings & customer satisfaction reports
- CRM and helpdesk integration automatically unfold customer records upon on the calls

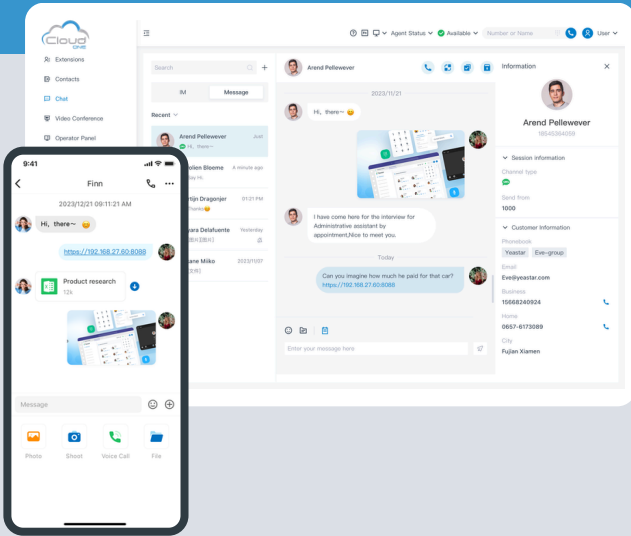

Greater Customer Experience

Omnichannel Messaging

Improve customer interaction by engaging with the channel of their choice. Cloud One Business Communication Suite allows you to manage your website live chat, business SMS texting, WhatsApp chats, and Facebook messages alongside your other support channel, reducing the number of tabs your teams need to keep track.

- All-in-one message inbox
- Outbound bulk messaging: SMS, WhatsApp
- Group chat in message queue
- Automatic agent assignment & message queue
- Contact matching and customer profile display
- Easy chat management: transfer, archive, close
- Elevate chats to calls in one simple click
- Traceable message detail records & chat logs
- Meet your customers wherever they are and respond from any of your devices, anywhere

Rich CRM/Database Integration

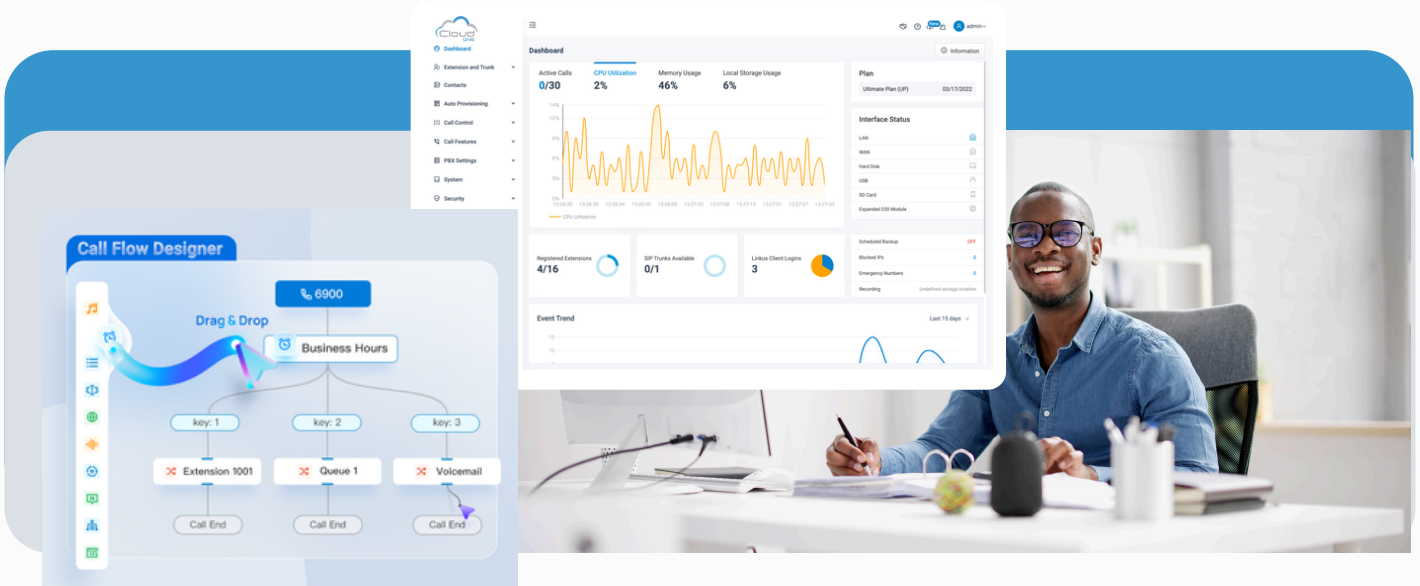

Break down communication barriers that isolate your contact center from the rest of the business. Cloud One Business phone system supports seamless integrations with popular CRM, database, and helpdesk platforms, so you can:

- Quickly identify who's calling or as messages come in
- Automatically open CRM contact records when customers call
- Click to call contacts without leaving your CRM
- Auto-create a new CRM contact for calls from unknown numbers
- Automatically log calls to CRM records
- Give the best customer service with all your customer's history in one place.

No Administration Hassles

Spend less time managing your phone system and IT, and more time working. Cloud One Business Communication Suite's unified admin portal makes all your settings and system administration straight forward. Set up call routing rules, add new extensions, create auto-attendants, and more, all can be done in minutes without IT assistance.

Easy Setup

- No technical expertise required
- Point-and-click configuration
- Plug-and-play IP phones with auto-provisioning
- Ready integration with Microsoft Extra ID and Active Directory

Easy Management

- Granular user permission based on user roles & extension groups
- Intuitive system performance and usage dashboard
- Clear call analytics, CDR, reporting
- Comprehensive event logs & notifications for system issues

Enterprise-grade Security

- SRTP & TLS call encryption
- Auto & static defense of SIP attack and spam blocking
- Global anti-hacking IP blocklist automatically updated
- Account login two-factor authentication
- More inbuilt security mechanisms & features

Call Flow Designer

Easily build custom call workflows with a drag-and-drop interface, no programming needed. Use 22+ native PBX components and reusable templates to handle everything from basic call routing to advanced automation with CRM/database integration and developer APIs.

High Availability

99.99% Uptime for Cloud PBX hosted by Cloud One. The enterprise-grade cloud hosting architecture is powered and double-secured by the global resilient AWS facilities.

Real-time Failover. Enterprise-grade Hot Standby solution for full PBX dual-server redundancy with real-time data replication, auto heartbeat check, and near-instant failover.

Cross-region Disaster Recovery to maintain uninterrupted call services even in case of regional disasters like network failure or power outage. *

*Supported only on the Cloud One Business Communication Suite Software Edition.

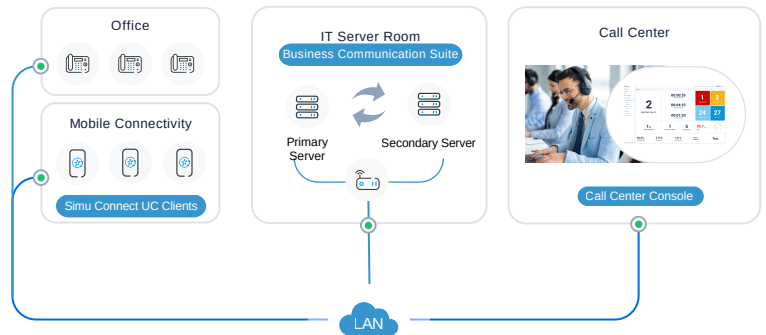

Great for Any Business

Through the easy-to-use, easy-to-manage, easy-to-adopt, and easy-to-grow communications solutions, Cloud One helps businesses of all sizes and industries meet their goals.

Healthcare

Improve the patient experience with faster response and greater connectivity.

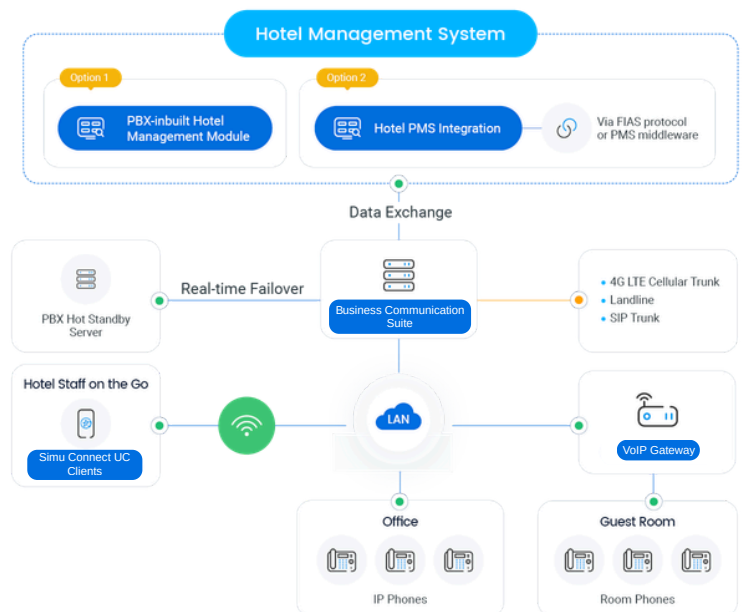

- Empower patient-centric call center that drives shorter response times
- Make doctors & staff mobile and always-on
- Telehealth services with video conferencing
- Longtime stability & system uptime
- Easy system administration
- Secure, encrypted communications

Hospitality

Streamline hotel operations while offering high availability for call services.

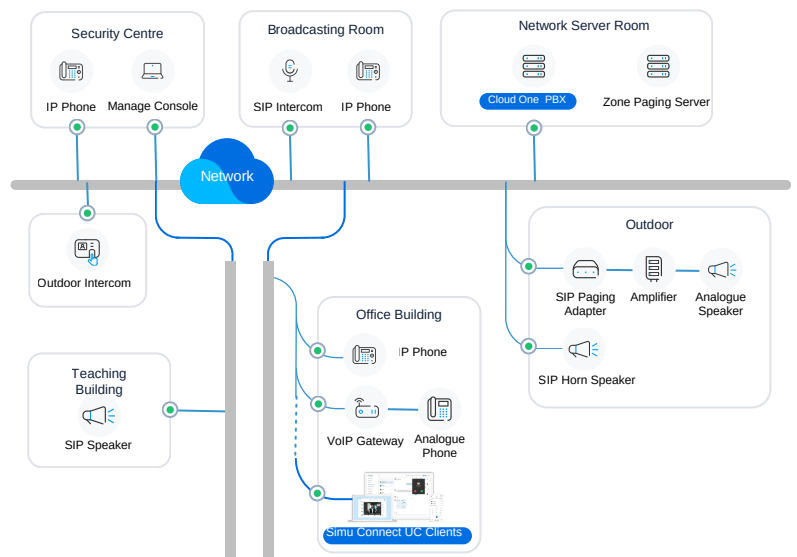

- Keep existing hotel phones & phone lines
- Operator panel for room booking calls
- Redundancy with Hot Standby & 4G LTE failover
- Built-in hotel management module: easy room management, guest check-ins/outs, and more day-to-day hotel operations in one intuitive interface.
- Hotel PMS & PMS middleware integration: wake-up call scheduling, guest check-in/out, call accounting, maid codes, blocking external calls when guests check out, etc.

Education

Helping faculty and students communicate effectively and securely in one single platform

- One-time & scheduled paging for facility-wide announcements, time-based bell, and emergency broadcast
- Integrate with SIP cameras, door phones, and other surveillance products for door access control
- Enhance multi-campus & student-teacher communications with a unified directory, conferencing, Simu Connect UC Clients, and more
